Release date 4th NOV 2006

**The long awaited 3rd full Gata Negra is finally out
on luscious vinyl and as digital download through www.bloodstarmusic.com
Vinyl distributed through Reverberation**

Gata Negra are one of WA's most influential bands.
This 10 track album is a result of over 2 years work and follows previous albums
Cage of Stars (1999), *Saint Dymphnae* (2002) and the *Taste of Iron EP* (2003).

Featuring singer/songwriter/bassist Cat Hope, drummer/vocalist Pete Guazzelli and guitarist Bill Darby,
this is a lush album of pop, noise, post rock and the spaces in between.

Recorded in the ambience of a classical music auditorium with engineer Ben Franz and mixed in Melbourne
by Casey Rice, this album takes the moodiness of Gata Negra to new places and develops their eclectic style.

On past Gata Negra offerings;

"...one of the best albums you will ever hear", *Mauro Carassai, Kathodik Magazine, Italy.*
"one of the best releases to come out of Western Australia this or any other year. It's early in 2002, and that's a big call,
but Gata Negra's "Saint Dymphnae" is that good." *Harvey Rae, WAM Online magazine*

COMPARED TO: Low, Portishead, Julee Cruise, Mazzy Star, and La Bradford
